List of Veterinarians Who Treat Turtles and Tortoises in Bakersfield

This list has been compiled to help turtle and tortoise owners locate veterinarians who can treat their animals. Please note that the entries have been submitted by California Turtle & Tortoise Club members. Appearance of a veterinarian on the list does not constitute an endorsement by CTTC.

There have been tremendous advances in the treatment of reptiles over the last few years, but readers should be aware that few veterinarians have received specialized training in reptile medicine, let alone in caring for chelonians. You may wish to contact other CTTC members for references.

We recommend documenting your animal's weight, measurements, eating habits, behavior and any other information that would be helpful to a veterinarian.

This list is compiled in alphabetical order and is provided as a reference. Being on this list does not constitute an endorsement by CTTC.
